

Assignment 3

Question 1–

Data Preprocessing, Visualization, and Machine Learning Using the Provided Dataset

ai_student_impact_data
aset (1).csv

Question 2

Using the data you collected in Assignment 1 and data preprocessing in Assignment 2, perform Machine Learning

➤ Important Notes:

- This is an individual activity; any two identical copies will result in a zero grade.
- Each student will participate in recording an explanation of the activity, which will account for 70% of the activity grade.
- Each student must submit the following:
 - Activity files with extensions (.ipynb) and pdf.
 - A Word file containing the link to the attached video on YouTube.
- Any solution using artificial intelligence, ChatGPT, or similar tools will result in a zero grade.

Good Luck
